SUMMARY

Creative and design-oriented Computer Science and Engineering student with hands-on experience in Figma, poster design, and developing intuitive digital interfaces. Skilled at delivering visually engaging, user-centred solutions through academic projects and student leadership roles, utilizing industry-standard design tools and principles. Driven by a passion for innovative design and technology, I am eager to contribute fresh, impactful ideas and grow as a technology professional within a forward-thinking organization.

SKILLS & STRENGTHS

Technical Skills: Figma, Canva, HTML5, C++, Python, MySQL, GitHub, Google Colab, Visual Studio Code

Soft Skills: Problem Solving, Creativity, Communication, Teamwork, Time Management, Adaptability, Attention to Detail

EDUCATION

Sahrdaya College of Engineering and Technology <i>B.Tech in Computer Science and Engineering</i>	<i>2023 – Present</i>
Chavara Public School, Pala <i>CBSE – Higher Secondary</i>	<i>2023</i>
GEMS Our Own English High School, Dubai <i>CBSE – Secondary School</i>	<i>2020</i>

PROJECTS

Lumina - AI-based home automation system <i>Technologies: Python, OpenCV</i>	<i>2025</i>
Developed an AI-powered home automation system using OpenCV to detect human presence and automate lights and fans, improving energy efficiency through real-time computer vision.	
Skill Axis - Workshop management platform <i>Technologies: Figma, HTML, CSS, Firebase</i>	<i>2024</i>
Designed the complete UI in Figma and developed a Firebase-based workshop management platform enabling students to browse, register for, and manage technical workshops.	
Echo - AI speech recognition and multilingual text translation <i>Technologies: Python, Firebase</i>	<i>2023</i>
Developed an AI-powered application for real-time speech recognition and multilingual text translation. Integrated speech processing and OCR techniques to improve accessibility and enable seamless multilingual communication.	

LEADERSHIP EXPERIENCE

Chief Community Officer (CCMO), IEDC Sahrdaya <i>June 2025 – Present</i>	
- Promoted from Vice President in recognition of outstanding leadership and contributions to the Innovation and Entrepreneurship Development Centre (IEDC). - Managed and mentored 50+ student leaders, leading the successful execution of college-wide technical events, workshops, and innovation initiatives.	
Joint Arts Secretary, Computer Science Department <i>June 2025 – Present</i>	
Directed the planning and execution of departmental cultural events, successfully managing participation and coordination for 500+ students through effective leadership and teamwork.	
Vice President, IEDC Sahrdaya <i>Aug 2024 – Jun 2025</i>	
Coordinated cross-functional student teams to organize technical events, workshops, and entrepreneurship programs, strengthening student engagement and participation.	

CERTIFICATIONS

- AI for Future Workforce Program — Intel Digital Readiness, Dell Technologies & Sahrdaya College of Engineering and Technology (2025)
- IgniteX 1.0 Entrepreneurship Program — Wadhwani Foundation (2025)
